**Friday, 5 September 2025**

**Para Dressage Grand Prix B – Grade I**

**Julia Sciancalepore (AUT)**

*It went very well, Heinrich was looking at the photographer a bit, so that's a bit unlucky. But we scored above 71% so I'm very proud. I wasn't expecting a score above 71% so I'm very happy. It's beautiful location here, very green. The stables are also very clean and big. And everyone is so friendly here, they all cheer you up. I'm an individual rider, but everyone is so helpful and kind. I have a strong bond with my horse, I got him when he was four years and he's always happy to see me. We make a good team. I can even sleep in his stable and he's just so sweet.*

**Rihard Snikus (LAT)**

*I felt great today, overall it went very well. Of course there are some things some little details that could be improved. But overall, I'm very pleased. It's very well organised here. And what's really nice is that you don't have to walk very big distances. Usually, I take my bike with me because the distances are too much. But here everything is so close by so the bike is not necessary. And the stables are very big and very clean. I love my horse, and he loves me. We've been together for 10 years and had 3 Paralympic Games together. So, we know each other very well.*

**Sara Morganti (ITA)**

*It felt very good, but the interruption made things a little bit difficult. You have to get into the moment again because of the break due to the weather. She was great. So, I'm happy because even though it was difficult situation, she did very well. So I'm happy about this score because maybe it can be useful for the team.*

**Mari Durward- Akhurst (GBR)**

*It was hard on my body today with the long delays, but Athene helped me through it. So, I'm very pleased. The minute she goes into the arena she knows her job and all the worries wash away. So, she's just incredible. I love her so much.*
