Para Dressage Grand Prix B Grade II

Heidemarie Dresing (GER)

My mare can be a bit nervous and it was not easy with all the rain and thunder before we had to start, but I am very pleased with how it went. Poesie is really my hope for the future and regularly scores around 77%. I have also another very good horse who competed in Paris, but he will be too old in a couple of years and my aim is to not only to go to Aachen and LA but also Brisbane in 2032. [with a laugh] After that I can retire myself.

Félix Gómez González (ESP)

I didn't like my test as there were some things that didn't go so well and the horse wasn't very active. I've been riding horses since I was very young. I think he's a good horse, we get along pretty well and we get to know each other better as time goes by. Ermelo is a very beautiful place.

Ann Cathrine Lübbe (NOR)

I think it was okay. We are just trying to get him to get comfortable in the arena. It was a little bit heavy. Yes. But I think he's nice. It's only his second big competition in his whole life. So, I think he was good. He did a good job. I am pleased with him.

We're best friends. I'm just happy for him every day. Even if we don't win big medals, I still love him. So, I'm happy. So, but we will train and be better.

Loes Cevaal (NED)

It went quite well. It could've been more smooth here and there but overall I'm satisfied. This was a great experience. It's my first international championship, so it's great to be able to do it in your own country. It is a dream come true

I have a very good relationship with my horse. There's lots of trust you can stand along him and you can do everything. On the back there's also a lot of trust, which is necessary to lead him. He's 20 years old so I think he did a great job this week, and I hope it will be the same with the freestyle on Sunday.
