**Para Dressage Grand Prix B – Grade V****Federica Sileoni (ITA)**

*I'm happy to be at the competition today. I'm really pleased with my horse — he was a bit spooky inside the arena, but he's such a good friend to me. I've loved working with him for years, and I love him very much.*

**Agata Weigt (POL)**

*I feel energised and excited. I'm still gaining experience, just like my horse today — it's like we're in paradise together. We're looking forward to the next season and starting fresh with our new relationship. I really love the connection we have; it's so friendly and supportive. It's amazing to feel so at home in the arena. The future looks super bright, and I'm grateful for all the support. The stables are wonderful, and everyone is so friendly. I truly appreciate it all.*

**Ildikó Fonyódi (HUN)**

*I'm really happy today there was no rain, which is great, and my horse was amazing with me. He was calm, and responsive, and I really enjoyed riding him. It feels like he truly understands me, and that's why I love him so much. He helps me in such a nice way. It gives me a good feeling to know that he's doing well. That's what matters most to me.*

**Kirsten Kristine (NOR)**

*I'm really happy. Today, Young was truly amazing, and I could feel that she was happy with what I asked of her. In the beginning of our relationship, she was very nervous — even small movements would startle her, and she would try to run away. But we've been working on building a relationship based on trust. I spent time with her in the stable, walking with her and showing her that she can trust me.*

*Now, she's becoming calmer and more confident. It's not just about riding — it's about the bond we're creating from the ground up. It's really beautiful to experience. This is my first year here, and it's incredibly special to me. I love the way this place allows people to follow their dreams, no matter what their background or abilities are. It shows that you can still dream big and do what you love. What makes it even more meaningful is that you meet people from all over the world. You build new friendships and connections that go beyond borders. That, to me, is something truly powerful.*

**Camilla Christensen (SWE)**

*I'm really excited about the competition this morning. It means so much to me, and it's my second time being in the Netherlands. I absolutely love it here — everything is just perfect. What's not to love? Thank you very much!*

**Jonna Aaltone (FIN)**

*It feels amazing here, a bit more exciting each time. It's like being surrounded by friends. I love being part of this competition and traveling around. Everyone is so welcoming, and the Netherlands is such a beautiful place to be. I truly enjoy everything here. Thank you so much!*

**Nicole Geiger (SUI)**

*First of all, the competition this morning was great. My horse was amazing, although he was a bit spooky at one point, but I'm not sure why. We worked really well together, and I'm happy with how it went. This is our last competition here in Ermelo, and it's been such a great experience. Everyone is so friendly, and the horses are wonderful. I feel really good about everything. Thank you for being here!*
